FM World opens the door to incredible opportunities for all of its members; whether it be financial liberation, time freedom, or pursuing lifelong passions as a business. The sense of teamwork and family bond is unbelievable a fantastic company culture that values the importance of an effective work/life balance, you will be made to feel appreciated and supported every step of the way.

With ongoing support from members and mentors, you will have the chance to work towards fulfilling goals and move up the ladder toward great success if you wish. When working with your sales group to accumulate points for better rewards, you will gain the experience, advice, and personal development needed to take on a team of your own if that's your goal.

How can I make or save money?

Saving on your own products – for an example if one of your favourite fragrances costs around £150.00 Swap.. (an idea: fill up your current bottle with FM equivalent), all though we don't believe you would want to due to the simplicity of FM labelling and packaging, example would be swap to FM World Royal range approx. £24.00 a saving of over £120.00, but you will never pay that due to the daily discounts and special offers saving you even more money.

Instant profit for example: 1 Pure fragrance RRP £34.00 Cost Price £26.00 (you wont pay this due to special offers and discounts) minimum profit of £8.00 per bottle.

Most products have points associated to them these points accumulate each month for that current period and not just your points, but you also receive the points of your team and the teams they create for infinite levels for example 1 Pure Royal fragrance = 96 points meaning just 4 of these bottles a month not only could you potentially make over £40.00 profit but you will also fall into the 3% commissions level bracket and 50 points is all that is required to enter the commission's plan is you wish to, that's just one fragrance a month.

Bonuses You Can Earn in a Month on Personal Points in addition to Retail Profit		
Points In Month	Level Achieved	Bonus if all Points are your own purchases
300-1199	3%	£1.80 to £7.19
1200-3599	6%	£14.40 to £43.18
3600-7199	9%	£64.80 to £129.58
7200-11999	12%	£172.80 to £287.97
12000-20399	15%	£360.00 to £611.97
20400-29999	18%	£734.40 to £1079.96
30,000 +	21%	£1,260 +

Don't be put off thinking you won't achieve any of the levels you will be amazed how quick the points add up especially when your taking orders just from friends and family.

FM World has limitless opportunities for self-development and incredible earning potential. The amount you earn is dependent on your performance and drive to succeed. FM strive to reward those that want to start a business.
